Subject: The Barclay Proposed Redevelopment

Hi Nancy,

We were recently contacted by the consultant for the Barclay site in Milwaukee regarding PCB issues within the building(s). After talking with our EPA and ATSDR colleagues, we understand there are many other issues related to this site (e.g. metals/TCE). We understand that you are the WDNR PM for the site and we wanted to reach out to you to inform you of our role. We will be talking with the consultant and owner tomorrow morning about PCB related issues and were wondering if you have some time tomorrow afternoon so that we can touch base and talk?

Thanks much,
